

Longstreet Pediatrics at Highpoint

QUICK FACTS

Atlanta, GA / 6,000 SF / 2018

PROJECT DETAILS

- Integration of pediatric care design into the entire building design
- Extended material selection of wood further by developing the playful "Woodland" activity stations for children who may need a distraction
- Woodlands Waiting divided into three areas: Infant, Well and Sick waiting rooms
- Separate offstage and onstage entrances for patients and care-providers to ensure a pleasant patient experience

AWARDS

ASID Georgia Silver design award for Healthcare Under 10,000 SF

SERVICES PERFORMED:

Interior design services including medical office prototype alignment, equipment analysis and coordination, finish selection and coordination, signage coordination, construction administration.

“Parents really love our new Pediatric Care clinic for its open space, inviting environment and the attention to detail.”
