

# Yancey Brothers Headquarters

## QUICK FACTS

Austell, GA / 30,000 SF / 2014-15

### PROJECT DETAILS

- Removal of a windowless, concrete shell and replacing with an attractive, appealing office
- An existing inconsistent column pattern drove the flexible design solution of incorporating a patterned facade
- Day-lit views to the outside drove employee enthusiasm and approval of the new space
- Program encompassed reception, training spaces for staff, story walls of company history in guest corridors, and oil testing laboratories

### SERVICES PERFORMED:

Exterior building upgrades and repositioning, openings and new facade system. Complete interior design services including space planning, programming, finish and furniture selection, construction administration
